

## Corporate Social Responsibility continued

Size of Generator	Certified Noise Level (Sound Power LWA)		
	Maximum EU Limit	Aggreko Standard Product	Aggreko Premium Product
30kVA	98.3	93.3	78.0
60kVA	98.6	89.9	80.0
125kVA	99.0	90.0	83.0
200kVA	99.1	95.0	91.0
320kVA	99.4	94.0	90.0

Note: A reduction of 3 LWA in the certified noise level equates to an audible noise level that is approximately 50% lower.

### Refrigerant

In accordance with the timelines and accords set out by the Montreal protocol Aggreko has phased out CFC plant from its temperature control rental fleet and is in the process of phasing out HCFC plant; we have introduced HFC replacement prototypes and production models in all areas.

### Social Responsibility Policy

Aggreko has a policy of encouraging local teams to engage with the communities in which they work, and each year they undertake innumerable initiatives to help the disadvantaged or those affected by natural disasters.

One such initiative is Book Aid International, a charity promoting literacy in developing countries, with which we signed a funding agreement in 2006. We have undertaken to provide them with £40,000 each year, to enable them to provide books and other educational material to schools and libraries in Africa. Last year, from the funding we provided, Book Aid International supplied over 20,000 books to its partners, including Non-Governmental Organisations, refugee camps, prisons and orphanages in six sub-Saharan Africa countries.

The wide variety and diversity of the books supplied is, we are told, of enormous value to Book Aid international partners, who can reach out to many communities and meet the information needs of key target groups, including the poorest people. Whenever possible, partners undertake activities to promote books and reading within their networks. These can include major initiatives, such as the East Africa reading tents project, or smaller bespoke activities for the visually impaired, or reading awareness days. All activities are aimed at ensuring the target groups are aware and able to access the books made available, and that a culture of reading begins to develop.

The feedback we receive from Book Aid International and their partners is extremely encouraging. For example, in 2007 the Kenya National Library Service suffered a 20% reduction in funding. A donation of 4,000 books through our project helped to maintain the library service through this difficult period. It has supported them in the re-launch of mobile and provincial library services, and enabled them to open three further community-based libraries. It has also helped support a mother and child reading project.

### Business Ethics

#### Ethics Policy

Aggreko has a reputation for delivering innovation, performance and solutions. Also at the heart of our long-term success is something less tangible and less easily illustrated with figures or case studies. This key element is integrity and honesty in our business dealings, a factor that contributes to our long-term relationships with customers. All Aggreko employees, as well as consultants and agents who we work with, are expected to behave ethically in their work, and our expectations of them are set out in a Corporate Ethics Policy. The objective of the Policy is to make Aggreko a good company to work for; to maintain our reputation for exceptional customer service and ethical business dealings, to compete ethically, and to ensure the business is managed to a consistently high standard. Further discussion of our policies for handling ethical risks is set out under Principal Risks and Uncertainties on page 24.

Employees who suspect any breaches of the Corporate Ethics Policy are encouraged to speak up, and their confidentiality and position is protected if they do so.
